

Isaac Asimov is second Lincoln lecturer

The second lecture in the Lincoln Lecture Series on Liberty and Equality will be held on campus Nov. 10 when well-known scientist and author Isaac Asimov comes to Gallaudet.

Asimov will be focusing on the meaning of the concept of liberty and equality as they are applied to the area of science, technology and the future of man in his lecture at Elstad Auditorium at 7:30 p.m. His hour lecture will be followed by a half hour question and answer period.

Aside from invitations sent to about 250 faculty, staff and students, a limited number of free tickets will also be available on a first-come, first-served basis. Tickets can be picked up at the Auditorium box office Friday, Nov. 6 from 3-6 p.m.; Monday, Nov. 9 from 3-7 p.m. and, if any tickets are left by

then, Tuesday, Nov. 10 from 3-7:30 p.m.

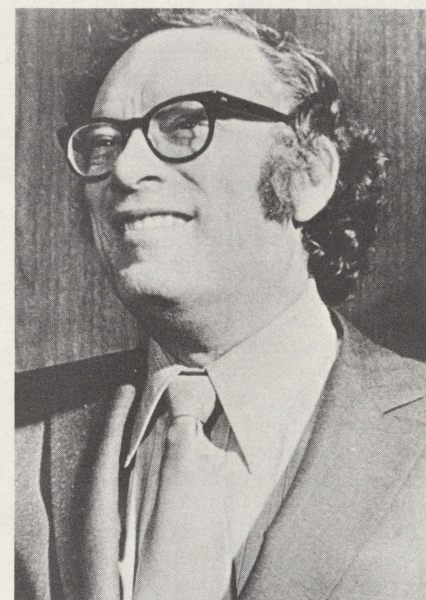

Also, as a service for MSSD and KDES faculty and staff at the other end of campus, tickets will be available at both MSSD and KDES on Friday, Nov. 6 from 3-4 p.m. Persons in the Pre-College area can also pick up tickets at the other times in the Auditorium. Additional ticket information will be printed later. Tickets promise to be in demand for this lecture, so try to get them early.

Seating, except for a reserved section for invited congressional guests, will also be on a first-come, first-served basis.

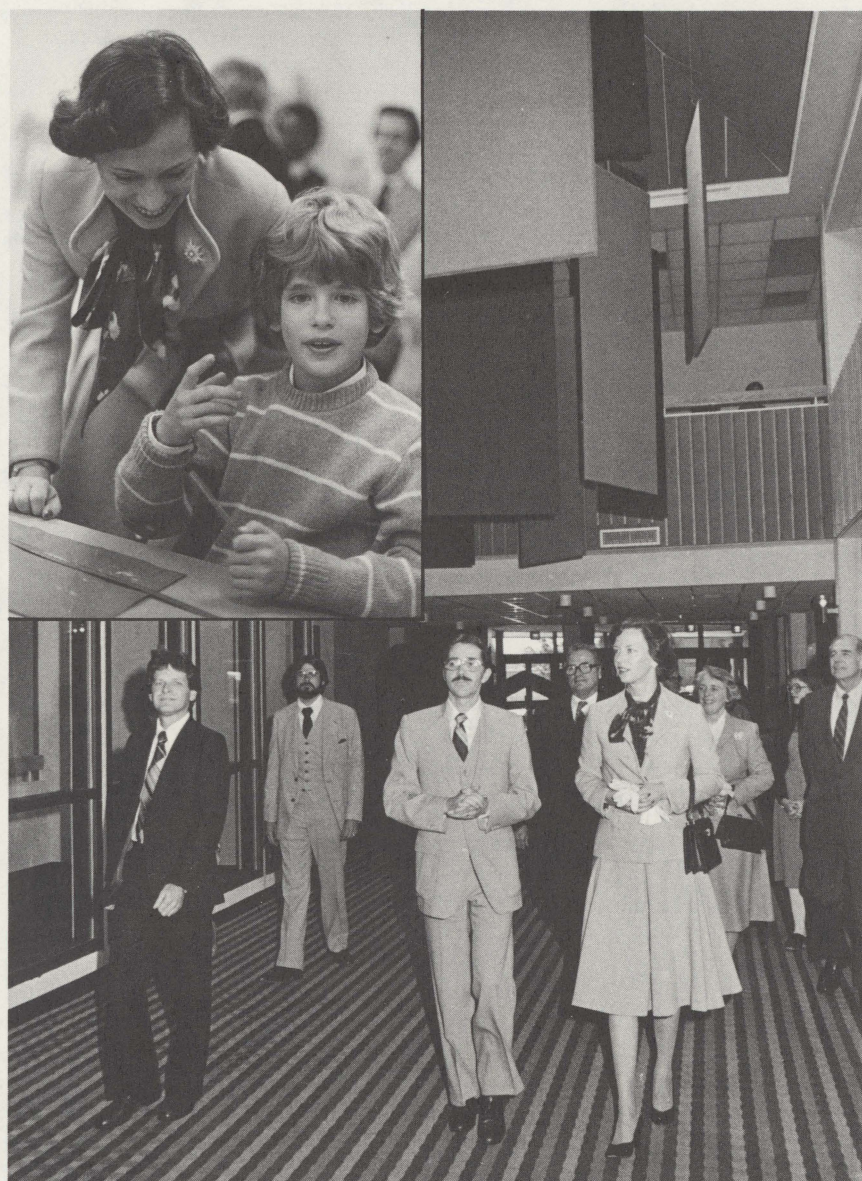

The lecture is again scheduled to be televised live over the Gallaudet College Television cable TV system and will be available on videotape for future viewing.

Asimov, an associate professor of biochemistry from Boston University, is one of contemporary literature's most prolific authors. He recently had his 200th book published. Among his well-known best-sellers are *The Foundation Trilogy*, *Asimov's Guide to Science* and *The Collapsing Universe*. He has also authored several histories and geographical volumes. Additionally, hundreds of his articles have appeared in such publications as *Esquire*, *Harper's* and *Saturday Review*. Asimov also edits his own magazine, *Isaac Asimov's Science Fiction*.

The lecture series is sponsored by the Lincoln National Life Insurance Company, which has given Gallaudet funds to make the lectures possible.

Isaac Asimov

Princess Benedikte of Denmark talks with Primary student Benjamin Moore, top, and tours Kendall School during her visit to Gallaudet Oct. 16. The Princess also was in New York to receive a Communications Award from the International Center for the Disabled in observance of the International Year of Disabled Persons.

College to develop training curricula

Gallaudet College was recently awarded a contract from the Centers for Disease Control (CDC) in Atlanta, GA to develop curricula for training parents of deaf children in several areas of health education and illness prevention.

The contract with CDC, an arm of the Department of Health and Human Services, is for \$316,765 and runs for 30 months beginning Oct. 1, 1981. By the end of the contract period,

Gallaudet will deliver to CDC a comprehensive curriculum including a communication skills component, a component focused on health attitudes and coping skills and a component on eight specific health areas—nutrition, exercise, stress management, safety, immunization, smoking, and alcohol and substance abuse.

An advisory panel of 15 experts in the areas covered by the contract is being formed.

Bill Fitz-Patrick

Two presidents

Gallaudet President Edward C. Merrill, Jr. talks with President Ronald Reagan at a White House luncheon held Oct. 14. Merrill was among college presidents and other persons invited to the White House, where Reagan received the Presidential Task Force Report on the Arts and Humanities and announced the nomination of Frank Hodsoll as chairman of the National Endowment for the Arts. A brief meeting between Merrill and Reagan, following the luncheon, was arranged by Sue Ellis, Gallaudet's director of External Affairs, through former Pre-College photographer Bill Fitz-Patrick, who has since worked at the White House through the Ford, Carter and Reagan administrations.

Serendipity

Library Bits & Pieces

Special collection on deafness

by Cathy Dickstein

The Gallaudet College Library has one of the best collection of information related to deafness in the world. More than 10,000 periodicals, monographs, conference proceedings, reprints of articles from journals to which the Library does not subscribe, nonprint items and other materials make up this collection. Most of these materials are accessible through the COM Catalog or through the DEAF data base on SIRE, the local online information system.

Circulating copies of these materials are kept in the Deafness Collection area on the lower level of the Learning Center. The first or original copy of each item in the collection is kept in a special area in Archives. The purpose of this special group of materials is to serve as a permanent, in-house research collection. Commonly referred to as "Copy 1" materials, these items may be used by a Library patron when no circulating copy of a particular item is available. Ask for assistance in obtaining a "Copy 1" in Archives or at the Information Desk. These materials must be used within the Learning Center.

Deaf-related periodicals, including publications of deaf organizations,

societies and schools, are arranged alphabetically by title in the Deaf Periodicals area on the middle level of the Learning Center. Current issues of the following periodicals are kept on reserve at the Central Desk: *American Annals of the Deaf*, *Volta Review*, *Deaf American*, *NTID Focus*, etc. . . . Access to periodicals is through the Union List of Campus Periodicals or the MAGS data base of SIRE.

The Deaf vertical files (subject and biographical) contain items which are not cataloged, such as newspaper clippings, flyers and brochures. The items are assigned subject headings and kept in folders arranged alphabetically by subject. The vertical files are located in the Deaf Collection area on the lower level of the Learning Center. The files are kept located and assistance is available in Archives or at the Information Desk. The items in the folders do not circulate but may be photocopied.

The College Library has a standing order with University Microfilms, The Clearinghouse for Dissertations, for any deaf-related dissertations. These are fully cataloged and accessible through the COM Catalog. All deaf-related dissertations are kept in a tall orange cabinet in the Deafness Collection, with a microfilm reader adjacent and photocopying available on the middle level.

MSSD students Wendy Smith and Ed Kinal rehearse a scene from "You Can't Take It With You."

New MSSD play begins Nov. 5

The Model Secondary School for the Deaf will bring a zany 1930's comedy to life for the enjoyment of both deaf and hearing audiences in its production of Moss Hart-George Kaufman's "You Can't Take It With You."

The story follows the antics of the Sycamores, who find it difficult to understand why their daughter's future in-laws won't agree to their son marrying into the unconventional Sycamore family. Add to the confusion an ex-grand duchess, fireworks in the basement and the U.S. Internal Revenue

Service and you have all the elements for enjoyment.

Performances are Nov. 5, 6, 7, 12, 13 and 14 at 8 p.m., and Nov. 6 and 13 at 10 a.m. in the MSSD Auditorium. Tickets are \$4 for adults and \$2 for students and senior citizens, plus special group rates.

For more information, contact the MSSD Performing Arts Department, x5801 voice or TDD.

Rates for postage increase again

The following rate increases will become effective at 12:01 a.m. Nov. 1, 1981:

- First class mail: Rate for first class letters will be 20 cents for the first ounce and 17 cents for each additional ounce or fraction of an ounce, not to exceed 12 ounces.
- Post cards: The post card rate will increase to 13 cents per piece.
- 3rd class bulk mail (non-profit): Will increase to 3.8 cents per piece.
- Fourth class mail (bound printed matter): This includes books and films. Rate, without regard to zone, will be 24 cents for the first pound or fraction, 9 cents for each additional pound or fraction through seven pounds, and 6 cents for each additional pound over seven pounds.

The current rates for special services such as certified, registered or insured mail will remain the same. The Kendall Green Station has a supply of 2 cent stamps on hand.

If you have questions about the new rates and how they will affect your mailing, contact the Post Office at x5180 or x5181, voice or TDD.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (Voice or TDD).

Deadline	Program
11/01/81	NSF—Computer Science Research
11/01/81	NICHD—Research for Mothers and Children
11/01/81	NEH—Humanities Research Materials: Publications
11/06/81	OSE—Handicapped Personnel Preparation
11/09/81	NIHR—Research and Training Center Grants
11/13/81	OSE—Student Research Related to the Handicapped
11/17/81	OSE—Handicapped Early Childhood Assistance
12/01/81	NEH—Higher Education Consultant Program
12/07/81	OSE—Field Initiated Research

Sponsored Research

The Office of Sponsored Research (OSR), a campus-wide service unit, has general responsibilities for stimulating, facilitating, coordinating and reviewing all research grant-contract-related proposals directed to federal or state agencies for the purpose of soliciting funds.

The responsibilities of OSR are generally divided into the "pre-award" and "post-award" period. The proposals for review by the Office include all those developed by the College and Pre-College faculty and staff, including

divisions, departments and schools.

OSR is concerned with all areas of grantsmanship, which includes the functions of identifying sources of potential funding for projects and programs and preparing proposals to obtain such funding. Office goals include:

- Providing members of the College and Pre-College faculty and staff with encouragement and consultation, technical or direct proposal-development assistance and other forms of support in the consideration and development of proposals to federal agencies.
- Identifying federal procurement invitations, contract awards and subcontracting leads of potential research interest to Gallaudet.
- Reviewing proposals to ensure that all certification and other forms are included and completed appropriately; indirect costs, fringe benefits and other budgetary items are correct; the College is not assuming some obligation or responsibility that it is unable or unwilling to carry out; and the proposal meets quality and other standards or guidelines of the College and Pre-College.
- Conducting grantsmanship training workshops for the faculty and staff with emphasis on funding source identification; considerations for determining whether a proposal should be developed; proposal format options; development of proposal problem statement, objectives, methods, activities and evaluation; and budget development and transmittal considerations.
- Developing proposals for external funding solicitation on behalf of the Division of Research, or in collaboration with other on-campus or external research units/agencies.

Through these and other means, it is the intent of OSR to encourage and foster needed research and nonresearch projects and programs that focus on different aspects of deafness.

It pays to advertise

It pays to advertise—especially in *On the Green*. About a month ago I lost somewhere on campus a small case with about 30 pages of research notes I had taken down at the new Gallaudet Library Archives.

When the campus police and campus TV news provided no clues to the lost item, I decided to try an advertisement in *On the Green*. And lo and behold, the case with notes intact turned up in the Personnel Office.

A \$10 reward is offered to the finder who brought it to the Personnel Office. So whoever picked up this case should contact Evelyn Mitton there. If no one applies to her for this reward she will donate the \$10 to her favorite charity.

—Rev. Otto Berg

Christmas mailing dates

International mail must be sent from the U.S. by the following dates in order to arrive by Christmas:

Destination	Air Parcels	Airmail Letters/Cards	Surface
North & Northwest Africa	Nov. 27	Dec. 7	Nov. 9
Australia	Nov. 27	Nov. 30	Oct. 26
Caribbean/W. Indies	Dec. 11	Dec. 14	Nov. 13
Central/South America	Nov. 30	Nov. 30	Nov. 9
Europe	Dec. 7	Dec. 11	Nov. 9
Far East	Dec. 7	Dec. 11	Oct. 26
Mid East	Nov. 27	Dec. 4	Nov. 2
Southeast Asia	Nov. 30	Nov. 30	Oct. 26
Southeast Africa	Nov. 27	Dec. 7	Oct. 26
West Africa	Nov. 27	Dec. 7	Oct. 26

President's Office Notes

Board of Trustees Meets

The Gallaudet College Board of Trustees met on Wednesday and Thursday, Oct. 14 and 15 for its first business meeting of the 1981-82 academic year.

On Wednesday evening, the Board heard John Doyle, majority staff director for the Senate Subcommittee on the Handicapped, who addressed public policy as it is defined and being implemented under the Reagan administration. His view, presented candidly to the Board, is optimistic only in the sense that the economic restraints applied to programs for handicapped people will not be as severe as some other program cuts.

Four new members of the Research Institute's Scientific Advisory Board were introduced to the Trustees at this Wednesday evening meeting. They were Dr. Aram Glorig of the House Ear Research Institute in Los Angeles; Dr. Caryl Haskins, founder and director of Haskins Laboratories; Dr. Richard Schiefelbusch, director of the Bureau of Child Research at the University of Kansas Medical Center; and Dr. Stephen Quigley, research professor at the Institute for Research on Exceptional Children at the University of Illinois.

At the afternoon business meeting of the full Board, several routine business-related proposals recommended by the Board Committee on Resources were approved in addition to five new or revised personnel policies. The policies were Tuition Assistance, Employee Termination, Staff Retirement, Funeral Leave and Educational Assistance.

A proposal to establish a Gallaudet College Foundation was examined in depth. The Board of Trustees, however, felt that it needed more time to think about this concept and the role the foundation would play in providing financial support for the College. The Board authorized the College to have drafted legal documents necessary for the establishment of the foundation including papers of incorporation and bylaws. When these documents are available, the executive committee of

the Board will be called on to review them. The Board would then expect to have this proposal come before it for a final decision at the January or March meeting.

Several recommendations of the Committee on Mission were approved including Pre-College Faculty Guidelines and Collegiate Faculty Bylaws. The Collegiate Faculty Bylaws were approved for one year, during which time issues which have been identified and presented to the faculty will need to be resolved. Inasmuch as the Collegiate Faculty By-Laws conflicted at several points with the General Faculty By-Laws, the latter were rescinded.

Six new members were appointed to the Board of Fellows: James Rowland, Dr. Jane Scully, Joseph Wyatt, Dr. John Harrington, Winfield McChord and Barbara Pollard (see previous OTG story). Professor R. Conrad of Oxford University was accepted by the Board as a candidate for the Research Institute Scientific Advisory Board. Marilyn Farmer of the MSSD faculty was awarded tenure and the policy on Archives was approved.

The next regular meeting of the Board of Trustees will take place on Thursday, Jan. 21, 1982.

Among Ourselves

The U.S. Council for the International Year of Disabled Persons has presented Gallaudet College with a certificate recognizing Gallaudet for making a special contribution to the IYDP.

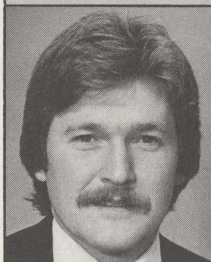

Jane Hurst, a faculty member in the Department of Religion, was stopped at a traffic light on Massachusetts Avenue recently when a man tapped on her window and asked if he could have a ride downtown. Wondering if she were doing the right thing, she opened the door. It turned out her passenger was Congressman Richard Ottinger (D-NY). She took him to the House Office Building and was invited in for coffee. The congressman assured her he has been and will continue to be a staunch supporter of Gallaudet.

The Sept., 1981 issue of the *American Annals of the Deaf* has an article written by Susan Zylstra-Owner, supervisor of the Special Opportunities Program at Kendall, and Stephen-Mark Ulissi, a psychologist at Kendall. It's titled "Conflict Resolution Training Program: Problem Solving Strategies for Hearing-Impaired Students with Behaviour Problems."

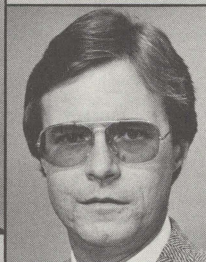

Professor William Stokoe of the Linguistics Research Laboratory delivered the second lecture in the Meade-Swing series at Oberlin College last week. His lecture on patterns that connect gave ASL a prominent place in the 1981-82 series. Stokoe also lectured to Oberlin students and faculty in the Communications Program, a concentration of studies that has sent many exchange students to Gallaudet. Stokoe reports that interest is high not only in signing as language but also in the culture of deaf people here and abroad.

Personalities

Tom Klagholz has been selected as permanent director of Gallaudet College Television. He has been with the College for six years in television production, serving as production manager for about two years and as acting director of GCTV since this past June. Klagholz has his Bachelor's in English and Education from Seton Hall University and Master's in Educational Technology/Instructional Design from Catholic University.

Klagholz

Kirby

Dan Kirby has been hired as manager of Purchasing and Services. He comes to Gallaudet after serving seven years as the advance man and director of purchasing for a large commercial operation. Kirby earned his BA from Virginia Commonwealth University.

Darnese Hines of the Purchasing Department has been promoted to the position of junior buyer. She has been the Purchasing Department secretary and office coordinator, and project technician. Hines will be responsible for procurement of various commodity groups.

Hines

Winstead

Barbara Winstead is a secretary with the Purchasing Department. She has attended the Washington School for Secretaries and has been a secretary for the past six years.

Ann Davidson, a faculty member here since 1977, is coordinator of Associate of Arts Program Development. Prior to coming to Gallaudet she was a faculty member at Anne Arundel Community College in Maryland. She received her MA in Zoology from Howard University and her PhD in Zoology and Biochemistry from Howard.

Broderon exhibit held til Dec. 4

From Oct. 15-Dec. 4, paintings by Morris Broderon will be on exhibit in the Learning Center. Born deaf, Broderon is a native of California who received his art training at the Pasadena Museum, U.C.L.A. and the Jasper Art Institute.

Although Broderon became a serious painter when abstract painting dominated the contemporary art field, his art has always used a figurative vocabulary. His art, though realistic, has never been literal. It is a highly personal, introspective art which at times has an almost surreal quality.

Although his art has clearly been energized by his personal and psychological conflicts, it is not an art of despair but one of hope. His themes show an interest in the ritualistic aspects of human behavior and culture ranging from the rituals of religion to the rituals of children's play. Broderon has a special feeling for children, and one of his most famous series of paintings is based on a friend's story about a child "listening to the sound of flowers." These paintings in particular reflect Broderon's concern for people and nature.

Morris Broderon is an artist of national reputation, and his works are in major museums throughout the United States including the Hirshhorn and Whitney Museums.

Broderon was represented in the recent *Spotlight on Deaf Artists*. Works by Douglas Tilden, Theophilus Hope d'Estrella and John Redmond who were also part of the recent Learning Center exhibition can now be seen in various locations at MSSD until Dec. 4.

Broderon will visit Gallaudet in November. The campus community is invited to meet him at a reception from 4-6 p.m. on Thursday, Nov. 19, in the lower level of the Learning Center.

Want to be a Big Sister?

Big Sisters of the Washington Metropolitan Area is a non-profit, social service agency which provides a service of establishing a one-to-one relationship between young girls (8-18) and adult female volunteers. The group believes this relationship can be a positive influence in the life of a child, along with helping to build a more positive self-image.

Big Sisters is recruiting adult female volunteers who may be interested in making a commitment to a hearing impaired Little Sister. When a Big and Little Sister are matched, a one year commitment and the willingness to maintain weekly contact are requested of all Big Sister volunteers.

Orientation will be held Thursday, Oct. 29 from 4-6 p.m. in the Ely Center Multipurpose Room. At this time, caseworkers will share the goals of the Big Sister program and what commitments and problems a volunteer may encounter after being matched with a Little Sister. Applications will be available at that time for interested parties.

For further information, you may call the Big Sisters office at 232-5600 (voice) or contact orientation coordinator Jo-Anne Jones in College Hall, Room 7, x5512.

The Kentucky Colonels stop an Eagle advance, but the MSSD team went on to win their Homecoming game 34-14. The Eagles continue to have an undefeated season.

MSSD wins at Homecoming

MSSD held its Homecoming on Saturday, Oct. 17 and made it a happy day with a 34-14 victory over Kentucky School for the Deaf.

Joey Vincent got things rolling for the Eagles in the first quarter when he intercepted a Kentucky pass and ran it 27 yards for a touchdown. Lenny Visco added another TD several minutes later on a five yard run. Todd Silvestri caught the PAT pass from quarterback Gary Noll and Model led 14-0.

Vincent, who rushed for 98 yards, made another TD in the first quarter on a 59 yard run. The point after try failed but the Eagles had a commanding 20-0 lead.

Kentucky finally got on the scoreboard late in the first quarter on a six yard pass but the PAT failed.

Model managed only one TD in the second quarter on a five yard run by Visco again. At halftime the Eagles took a 26-6 lead and never looked back.

In the third quarter Silvestri ended the Eagles scoring for the day with an eight yard run and Clif Watson rushed over for the two point try. Kentucky added one final TD in the fourth quarter.

MSSD also sponsored an Invitational Volleyball Tournament on Friday, Oct. 16. Five teams played in this round robin tournament and Model placed fourth. Teams who played were St. Agnes, O'Connell, Immaculata and National Cathedral.

Building improvements help save oil

by Jim Hull

Summer has gone, and with it went the need for our largest consumer of electrical power—central chilled water for air conditioning.

With cold weather approaching, it's time to get psyched up about saving another type of energy—oil. In Fiscal Year 1981 we consumed 1,040,000 gallons of oil (remembering that we vacated the Library and occupied the partially electrically heated Learning Center) and we hadn't occupied Ely Center at all. With Ely Center occupied, plus the addition of the Field House, we can reasonably expect to burn 1,075,000 gallons under the same weather conditions.

Curriculum

continued from page 1

ing selected and will participate actively in the development, review, evaluation and revision process.

Dr. David Updegraff, assistant to the vice president for Pre-College Programs, has been named project director. Updegraff has been an administrator and faculty member at Gallaudet for about 12 years. Most recently he has been responsible for the College's P.L. 94-142 Program, providing workshops and training to parents on their rights under the legislation. He is completing selection of project staff and advisory panel members at this time.

Although the cost of fuel has moderated and even regressed somewhat in the last several months, it can't be expected to stay at this lower cost.

Maintenance and Operations, with the cooperation of Design and Construction, is actively engaged in improvements to keep our consumption of fuel to a minimum and still keep you comfortable in the winter ahead. A few of these improvements are:

- Insulation of ceilings in the historic buildings.
 - Programmed set-back thermostats in houses converted to offices.
 - Thermostatic radiator valves in College Hall and scheduled for Fowler Hall.
 - Night set-back and outdoor temperature-actuated master steamer valve controls in College, Chapel, Fowler, Dawes and Kendall Hall.
 - Night set-back and renewed zone controls for Hall Memorial Building.
- These controls are fully automatic and are designed to limit the heat to a pre-set temperature and to keep these antiquated heating systems from overheating, which should eliminate the need to open windows to remove excess heat.
- Operating improvements are a big step forward but not a positive cure. With budgetary restrictions for FY '82, Gallaudet would like to keep oil consumption below that of FY '81. Your help in exercising good judgment is needed.

Associate professor Bob Jackson demonstrates how to use a kayak to his physical education class.
